

No Compromise

BETTER WELDING BEGINS HERE!

From the house of **Snap-on**

BLUE-POINT MIG WELDER

- The machine has many benefits over traditional transformer MIG welders, including infinite power control and a compact wire feed mechanism to provide very smooth wire feed and weld characteristic
- Latest IGBT inverter technology
- MIG/MAG with gas-less wire function
- Industrial application
- High strength metal case construction
- Euro Style MIG torch connection
- IP21S rating for environmental / safety protection
- Step less voltage and wire feed control
- Light weight and portable
- Wire inch and burn back functions

BLPINVMIG160A

BLUE-POINT DENT PULLER

- Spot-welder puller for use of repairing dents on vehicle metal bodies
- Input voltage Phase 1 220V 50/60Hz
- Output Range AC6V-10V Carbon rod heating AC1V-12V Washer fusion AC1V-13V Butt weld
- Input Power 10KW
- Instant max. current 1200A
- Input current 30A
- Time regulation system 0-99ms
- One side welding thickness 0.8+1.2(mm)

BLPMFDP01

BLUE-POINT PC 45 PLASMA CUTTER

- Plasma cutting machine using electric arc and compressed air only
- High performance with cutting thickness of up to 25 mm
- Suitable for automotive market - 3mm
- Suitable for construction market - 20mm
- Suitable for fabrication market - 5mm
- Cutting steels and alloys
- No special gas required
- Easy setup
